CERTIFICATIONS

PROFILE

Agile leader with more than 8 years coaching teams and driving delivery outcomes across fintech, healthcare, and blockchain. Skilled at backlog prioritization, facilitating high performing scrum teams, and partnering closely with Engineering & Stakeholders to establish a proven track record of consistent and predictable value delivery in highly regulated environments.

EXPERIENCE

Gravity Payments

May 2022 – November 2025

Senior Scrum Master / Project Manager

Led 5 teams across 8 projects in a high-growth fintech payments environment. Stood up the PMO, coached teams through Agile transformation, and delivered >98% forecasting accuracy while aligning delivery tightly to business outcomes.

Nerd United

March 2022 - May 2022

Senior Scrum Master & Product Manager

Drove Agile transformation and start to finish project delivery in a fast moving blockchain/startup setting. Coached teams through rapid change while maintaining consistent execution and clear ownership of outcomes.

Intermountain Health

April 2019 – May 2022

Senior Scrum Master & SM Chapter Lead

Coached global and distributed teams through Agile practices and delivery. Served as Agile Scrum Master Chapter Lead, focusing on team development, consistent ways of working, and reliable outcomes in a complex healthcare environment.

Medici Ventures

October 2017 - March 2019

Senior Scrum Master / Project Manager

Blockchain focused startup environment, supporting Agile implementations, coached teams, and drove end to end project delivery for multiple venture companies and projects, and amid rapid innovation and evolving priorities in a new technology space.

EDUCATION

Western Governors University

Bachelor of Science, Business Management

PROFILE

Agile leader with more than 8 years coaching teams and driving delivery outcomes across fintech, healthcare, and blockchain. Skilled at backlog prioritization, facilitating high-performing Scrum teams, and partnering closely with Engineering and stakeholders. Proven track record of consistent, predictable value delivery in highly regulated environments.

EXPERIENCE

Gravity Payments

May 2022 – November 2025

Senior Scrum Master / Project Manager

- Served as Scrum Master for 5 parallel cross-functional development teams in a fintech environment; facilitated all Scrum ceremonies while acting as servant leader to foster collaboration and high performance.
- Coached Project Managers, Scrum Masters, Product Owners, and Developer Managers on Agile principles, soft skills, and continuous improvement to build organizational Agile maturity.
- Led end-to-end project planning and execution for up to 8 simultaneous initiatives; established velocity-based forecasting that improved predictability and accuracy by over 98%.
- Played a key role in establishing the company's PMO, defining and rolling out standardized Agile processes, tools, and governance to scale delivery.
- Proactively identified and removed impediments, managed risks, and ensured regulatory compliance in a high-stakes payment processing environment.

Nerd United / GiveBlockchain

March 2022 – May 2022

Senior Scrum Master & Product Manager

- Served as Scrum Master (and interim Product Owner/Business Analyst) for a cross-functional team, facilitating all key Scrum events to drive iterative delivery in a blockchain-focused environment.
- Collaborated with the VP of Engineering and stakeholders to refine epics, user stories, and acceptance criteria, ensuring a prioritized backlog aligned with business goals.
- Coached engineering leads and the organization on Scrum principles and Agile transformation, accelerating team maturity and improving requirements clarity.

Intermountain Health

April 2019 – March 2022

Senior Scrum Master & SM Chapter Lead

- Served as Scrum Master for multiple globally distributed teams (US, Mexico, India, Canada), facilitating full Scrum ceremonies to support consistent delivery of application systems in a regulated healthcare environment.
- Acted as Scrum Master Chapter Lead, coordinating, mentoring, and supporting a community of Scrum Masters across the organization to elevate Agile maturity.
- Led release planning and velocity pointing sessions using Jira and Confluence, helping teams forecast accurately and improve predictability in a complex multi-team ecosystem.

Medici Ventures

October 2017 – March 2019

Senior Scrum Master / Project Manager

- Hand-picked by leadership to take on the Scrum Master role, guiding cross-functional blockchain teams (3–15 members, local and remote in Ireland & Romania) through full Scrum adoption.
- Contributed to early Agile adoption in a venture-backed blockchain accelerator, establishing consistent ceremonies that supported high-velocity experimentation and product iteration.
- Mentored associates and employees on Scrum/Agile methodologies while bridging technical blockchain complexity with Agile principles.
